It uses disc brakes to stop during daily traffic. These brakes work by a master cylinder pumping brake fluid through thin brake lines to pistons at each wheel.SOURCE: Power steering and brake line location2002 Chevy Silverado 2500HD the power steering lines are very short hoses approximately 8 inches long that go from the power steering pump down to the steering box, which is located on the frame, just below the pump.This 2002 Chevrolet Silverado is the absolute worst vehicle for rust issues. Not only did the brake lines rust out, but there is rust on the rocker panels, gas door and rear cab corners.
