

Download 5s Standard Color Code Guide

Moreover, Section 4.2 of the standard explicitly states that the specifications are intended for use on safety signage. Thus Z535.1 does not provide a sound basis for formulating a color standard for floor marking. Some information resources also reference OSHA standard 29 CFR 1910.144, Safety Color Code For Marking Physical Hazards. Color codes promote safety and improve performance – saving time, money, even lives. The 5S and Visual Workplace Color Code Standards Guide explains color code methodology and regulations, and will help you with ideas to implement the efficient, effective use of color in your facility. There is no organization that sets the standards for 5S. However, a color coding system has become a "standard" based on common use. This standard is documented in the Graphic Product's 5S Standard Color Code Guide. The Graphic Products 5S Standard Color Code Guide is available either laminated or unlaminated. Use this colorful 5S color code wall chart to easily implement 5S in your workplace today. Organize your facility, run more efficient, and increase productivity; Identifies standards behind the 5S colors for consistency; Implement the 5S color scheme with visual solutions that work
