

Download A History Of Mathematical Notations

Florian Cajori

Mathematics historian Florian Cajori (1859–1930) taught at Tulane University and Colorado College, as well as at the University of California, Berkeley, where he was appointed to a specially created chair in history of mathematics. Appointed to a specially created chair in the history of mathematics at the University of California, Berkeley, he also wrote *An Introduction to the Theory of Equations*, *A History of Mathematical Notations*, and *The Chequered Career of Ferdinand Rudolph Hassler*. NATURAL SCIENCES, Mathematics, Fundamental and general consideration of mathematics Publisher The Open Court Company, Publishers Collection universallibrary Contributor Osmania University Language English *A History of Mathematical Notations*. This classic study notes the first appearance of a mathematical symbol and its origin, the competition it encountered, its spread among writers in different countries, its rise to popularity, its eventual decline or ultimate survival. The author's coverage of obsolete notations — and what we can learn...
