Webster's Dictionary is any of the dictionaries edited by Noah Webster in the early nineteenth century, and numerous related or unrelated dictionaries that have adopted the Webster's name. "Webster's" has become a genericized trademark in the U.S. for dictionaries of the English language, and is widely used in English dictionary titles. Merriam-Webster is the corporate heir to Noah Webster's ...Dichlorodiphenyldichloroethane (DDD) is an organochlorine insecticide that is slightly irritating to the skin. DDD is a metabolite of DDT. DDD is colorless and crystalline; it is closely related chemically and is similar in properties to DDT, but it is considered to be less toxic to animals than DDT. The molecular formula for DDD is $(C_{12}H_{10}Cl_2)_2$ or $C_{24}H_{20}Cl_4$, whereas the formula ...Content: ^ The Book of Armagh contains the earliest copy of Saint Patrick's Confessio known to exist. However, significant passages are omitted - deliberately, as it seems, in order to promote St Patrick as a most successful missionary and glorious founder of monasteries in Ireland without failure. Documents used in researching this project . This study has not been carried out with the rigour which would usually characterise an academic research subject.
