Technical Metal was established in 1987 making us one of the most experienced and well-respected fastener manufacturers in the United Arab Emirates. Explanation. A screw is a combination of simple machines—it is in essence an inclined plane wrapped around a central shaft, but the inclined plane (thread) also comes to a sharp edge around the outside, which acts a wedge as it pushes into the fastened material, and the shaft and helix also form a wedge in the form of the point. Some screw threads are designed to mate with a complementary ... Type: shipwreck, barge Sunk: March 2004 foundered under tow Depth: 60 ft. This medium-sized crane barge sank under tow in March 2004. The barge is upside-down, but propped up at a 30 degree angle by the crane, rising 30 feet off the bottom at the highest point.
