Chemistry is the natural science involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it provides ...Patent bar exam study guide. I took the exam yesterday and passed. I'd say a fair 25%-33% of the questions were straight from previous tests that I had seen while taking the PRG ExamWare tests.
