

Download Combustion Technology Manual

Welcome to LCT Service. Looking for parts, manuals, servicing issues, warranty information? We've got you covered. Still have questions? Representatives can be reached via email at Customer Support during normal working hours: M-F 8AM-4PM EST. Liquid Combustion Technology (LCT) is a US owned, managed and operated company that manufactures air-cooled four cycle gasoline engines for related outdoor power equipment markets. For over 22 years, our hot air shop heaters have developed a proven track record for reliability, safety, ease of use and maintenance. Available in 250,000 BTU/hr, 500,000 BTU/hr and 800,000 BTU/hr, these all-steel, hot air furnaces are ideally suited to heat any commercial facility with access to wood fuel. Coal Combustion and Gasification Products is a unique peer-reviewed journal designed specifically to communicate coal ash research and emerging new technologies. CCGP is a joint venture between the University of Kentucky Center for Applied Energy Research (UK CAER) and the American Coal Ash Association (ACAA). The organizations' primary goal is to bring together research that currently is ...
