Does any one have any knowledge on the the nitrogen counter balance on the Haas VF-3. It is supposed to be @1150 but is @1000. When machine is powered down head slowly falls to limit. Haas offers a wide range of VF Series CNC models to match any size and production requirement. Regardless of your needs, there's a VF just right to meet the demands of your machine shop. I recently received an "ALARM 144" stating I had only 4 days left to use my machine and needed to call my local machine rep. Being new to the Haas machine, I had no idea what this meant. I couldn't find much on the interwebs so I decided I would write up a brief summary on how to fix the problem ...
