In the late 1960s the world was faced with impending disaster: the height of the Cold WarLast Futures: Nature, Technology and the End of Architecture. Whatever happened to the last utopian dreams of the city? In the late 1960s the world was faced with impending disaster: the height of the Cold War, the end of oil and the decline of great cities throughout the world. Out of this crisis came a new generation that hoped to build...Last Futures: Nature, Technology and the End of Architecture. In response to the apocalyptic mood of the times, the grand projects of architects and city planners were slowly but surely dismantled, leaving only ruins of the 'last futures' that continue to have a vestigial hold on the utopian imagination.Last Futures: Nature, Technology and the End of Architecture (Item) (86287) - n the late 1960s the world was faced with impending disaster: the height of the Cold War, the end of oil, and the decline of great cities throughout the world. Out of this crisis came a new generation that hoped to build a better future, influenced by visions of geodesic domes, walking cities, and a meaningful ...
