

Download Learning Workshop Guide

What is Family Creative Learning?. Family Creative Learning is a workshop series that engages children and their parents to learn together — as designers and inventors — through the use of creative technologies. Focus on Learning Learning Intentions Success Criteria Workshop 01 4 step 1 The slide presentation can be used to introduce learning intentions and success criteria to a whole staff group. Invited Talks Lise Getoor (UC Santa Cruz), “Exploiting structure for meta-learning” Many machine learning problems exhibit rich structural dependencies. We need meta-learning algorithms which can represent, discover and exploit them, and we can use structured models to express the dependencies inherent in meta-learning. RPL in the Military: An Update CAPLA is hosting a special RPL in the Military pre-conference event on Wednesday, November 21 from 9:00 am – 5:15 pm, in conjunction with our fall conference Recognizing Learning 2018: Caring for adults using tools, systems and policies to make it happen on November 22–23, 2018 at the Grand Hotel and Suites in Toronto.
