Since 1990, the Mobile Source Air Pollution Reduction Review Committee (MSRC) has invested more than \$400 million in hundreds of clean transportation initiatives that reduce air pollution from motor vehicles throughout the South Coast Region.

Introduction. This document gives coding conventions for the Python code comprising the standard library in the main Python distribution. Please see the companion informational PEP describing style guidelines for the C code in the C implementation of Python .. This document and PEP 257 (Docstring Conventions) were adapted from Guido's original Python Style Guide essay, with some additions from ...I still go with the uppercase for const values, but this is more out of habit than for any particular reason. Of course it makes it easy to see immediately that something is a const.

Several weeks ago I asked on Twitter for SQL schema naming conventions from DBA professionals. (I'm always interested in the generally-accepted practices of related professions; when I can, I try to make my work as compatible with theirs as possible.) I got back only a handful of responses ...
