

# **Download Performance Modifying Chevy Trucks For Street Strip And Off Road S A Design**

In this All-New Edition, Master engine builder David Vizard takes big-block Chevy engine building to the next level and shows how to build these extreme high-performance engines without breaking the bank. What will you do with 461 horsepower and 558 lb.-ft. of torque from the value-driven 502 HO crate engine? Whether you use it on the street, strip or even pulling a trailer, its performance range offers many possibilities. Models and Pricing TH-700R4. Our most popular performance transmission, we have been modifying and improving this trans since it was first introduced in the early 80's. The Gen III/IV engines have the same basic requirements for the exhaust system as other automotive engines, but these high-performance engines have specific EFI system requirements that must be met for the system to perform properly.
