

Download Pharmacology And Medications For Vocational Nurses

A licensed practical nurse (LPN), in much of the United States and Canada, is a nurse who cares for people who are sick, injured, convalescent, or disabled. In the United States, LPNs work under the direction of physicians. In Canada, LPNs/RPNs work autonomously similar to the Registered Nurse in providing care and are responsible for their individual actions and practice.

15.3 LVNs Engaging in Intravenous Therapy, Venipuncture, or PICC Lines: The basic educational curriculum for Licensed Vocational Nurses (LVNs) does not mandate teaching of principles and techniques for insertion of peripheral intravenous (IV) catheters, or the administration of fluids and medications via the IV route.

Program Code: 01340.00AS Type: Career GE: Butte Local

About the Program: The Licensed Vocational Nursing program is a state approved vocational program which provides the curriculum necessary for an individual to qualify for the state board examination for licensure as a vocational nurse. Many people might not know the exact difference between a Licensed Practical Nurse (LPN) and a Registered Nurse (RN). Although both allow for a fulfilling career in nursing and healthcare, when it comes to aspects like job responsibilities, salary, and education - the two are different.
