

# Download Photosynthesis And Cell Respiration Review Guide

Start studying Photosynthesis and Cellular Respiration Study Guide. Learn vocabulary, terms, and more with flashcards, games, and other study tools. \ Ch. 8, 9: Photosynthesis and Cellular Respiration Study Guide. Ch. 8, 9: Photosynthesis and Cellular Respiration Study Guide. aerobic cellular respiration. The process that releases energy by breaking down glucose and other food molecules in the presence of oxygen. mitochondria. Photosynthesis and Cell Respiration Review Guide. \*This is not the sole resource for studying for your test it is just a guide\*. 1. What is the equation for cellular respiration? 2. What is the equation for photosynthesis? 3. What does it mean to be oxidized? Reduced? Photosynthesis and Cellular Respiration Review Guide Question Answer 1. What does ATP stand for? Adenosine Tri Phosphate 2. Label the molecule of ATP. adenine ribose 3 phosphate groups 3. How is the energy from ATP released? What molecule is formed? the bond between the last two phosphate groups is broken, and ADP is formed 4.
