A fun, interactive, and user-friendly organizer that guides expectant mothers through the nine months of pregnancy and helps them savor every moment of this important time. The perfect book to pair with *You & Your Baby* (tm) Pregnancy and an ideal companion for mothers-to-be *You and Your Baby Pregnancy Organizer* - \$5 (Beaverton) I have a like new *You and Your Baby Pregnancy Organizer* by Dr. Laura Riley. The organizer has never been used (its blank inside), however there is a cut on the cover and some glue residue. This handy organizer has spaces for all of your basic pregnancy information but also has some practical things on planning for a childbirth class, building your nursery, and keeping track of baby names and gifts. Just hold your *My Baby's Heartbeat Giraffe* up to your bump and record 20 seconds of your ultrasound heartbeat. Then, use the *My Baby's Heartbeat Bear* app to store it in the cloud so you can record other sounds later, like your baby's first belly laughs or your own special message.
