

Download Recent Advances In Chemistry And Technology Of Fats And Oils

Since we produced Fats and Oils: Chemistry and Technology in 1980, the trend we anticipated to up-date the classical texts of oils and fats has manifested itself. Bailey's famous textbook has been completely revised and a second edition of Bernardini's work has been produced. Since we produced Fats and Oils: Chemistry and Technology in 1980, the trend we anticipated to up-date the classical texts of oils and fats has manifested itself. Bailey's famous textbook has been completely revised and a second edition of Bernardini's work has been produced. The present text is an **Recent Advances in Chemistry and Technology of Fats and Oils**. Chapter 3 outlines some of the problems which can arise in industry when the lipid part of a foodstuff undergoes oxidation, whilst in Chapter 4 Patterson describes the major technique, hydrogenation, which is used to circumvent the problems caused by oxidation of... **Physical Properties of Fats and Oils.**- 1.1 Introduction.- 1.2 Melting and Crystallization Behaviour.- 1.3 Solids Content and Phase Diagrams.- 1.4 Compatibility of Fats: Product Defects.- 1.5 Final Remarks.- 1.6 References.-
