

# Download Ski Doo Mxz User Manual

I, too, wanted more customization of my spring order. I want to order a 2020 Renegade X-RS 900 ACE Turbo with a black tunnel, black bellypan, yellow hood and side panels (as on the 2020 MXZ TNT) and black skis with yellow loops. searched around for a few hours, found a service manual but nothing says how to change the chain case oil on a mxz 583. doesnt even show a drain plug on it. should i just open the case up and let the fluid drain that way? i just want to change it before i go out and use it this year.
