Phlebotomy Technician Overview. A phlebotomy technician is a healthcare professional that is responsible for drawing blood from patients and preparing it for further medical testing. Browse a list of medical lab technician programs that prepare students to conduct laboratory tests to help with diagnosis and treatment of several conditions and diseases. A Phlebotomy Technician (Phlebotomist) is an integral member of the medical laboratory team whose primary function is the collection of blood samples from patients by venipuncture or microtechniques. The Phlebotomy Technician facilitates the collection and transportation of laboratory specimens, and is often the patient's only contact with the medical laboratory.
