Chemistry

chemistry. From aluminum to xenon, we explain the properties and composition of the substances that make up all matter. Our study guides are available online and in book form at barnesandnoble.com. Exam Description: The Chemistry CLEP covers the material commonly found in a one year college Chemistry course. You'll be expected to understand reaction types, equilibrium, kinetics, states and structure of matter, stoichiometry and equations. Types of Bonding in Crystalline Structures. Now, we understand that a crystalline structure can be described as the three-dimensional arrangement of atoms, molecules, or ions within the structure. Known as the central science, chemistry is integral to our understanding of the natural world around us. In this lesson, you'll be introduced to the field of chemistry, learning about its history ...
