AET 101 Internal Combustion Engine Theory and Servicing. This is a theory/laboratory course designed to introduce the student to basic heat engine types, their physical configurations and various engine operating cycles. These are the winners of the organization awards at the 2019 Fairfax County Regional Science and Engineering Fair. The Standards. Published in Science in 2015 (), the Transparency and Openness Promotion guidelines include eight modular standards, each with three levels of increasing stringency. Journals select which of the eight transparency standards they wish to implement and select a level of implementation for each.
